We encourage investigators working in the following areas to attend:

- Advanced Data Analysis
- Aerodynamics
- Anatomy
- (Bio-) Acoustics
- Biomechanics
- Computational & Experimental Modeling
- Fluid-Structure-Acoustic Interactions
- Image Processing
- Laryngeal Pathologies
- Machine Learning
- Molecular & Cellular Biology
- Neurobiology
- Neurophysiology
- New Technologies
- Physiology
- Speech-Motor-Control
- Tissue Engineering

Organizers:

Michael Döllinger, PhD

Stefan Kniesburges, PhD
